

HOW ALABAMA CAREER/TECH WORKS:

Career/Tech is a statewide program designed to introduce students to a variety of career opportunities and offer hands-on training and/or classroom experience. What kind of hands-on training and classroom experience? That's where you come in. We collaborate with area businesses to build a curriculum that teaches students the skills that employers want. It means better jobs for high school graduates and better employees for businesses. Everybody wins, especially you, the employer.

WHAT ARE WE TEACHING KIDS IN HIGH SCHOOL NOWADAYS?

WHATEVER HIRING BUSINESSES ASK US TO.

WHAT'S IN IT FOR ME?

Alabama Career/Tech provides a steady source of skilled employees to a variety of industries across the state. That means companies spend less time training employees from scratch and more time getting productive, professional services from new employees.

HOW DO I GET INVOLVED?

Use the contact information on the back of this brochure to speak with your area Career/Tech Director about current courses being offered. Suggestions on how to better prepare students to enter your industry are welcome.

WHAT COURSES DO WE OFFER?

There are hundreds of job opportunities that fall under one of our five major categories: Agriscience, Business/Marketing Education, Family and Consumer Sciences Education, Health Science Education and Technical Education. Chances are your business or industry falls into one of these categories.

IN A NUTSHELL.

Alabama Career/Tech representatives would like to speak to you about the possibility of cooperating with your business to help generate qualified, experienced high school graduate employees for your industry. You can save money on training new employees. We produce students more prepared for a real job. Alabama's workforce becomes more efficient. So let's talk business.
